RE: Announcement of Second Date for EIPC Stakeholder Webinar

**Second Date for Eastern Interconnection Planning Collaborative (EIPC) Webinar
Friday, October 16 from 11:00 a.m. – 12:30 p.m. Eastern Time**

Due to the large number of interested participants, we have closed the October 13 webinar registration and are offering the same webinar again on Friday, October 16. Please use the link below to sign up and learn about EIPC, which is being created by a consortium of Regional Planning Authorities in the Eastern U.S.

To register for the webinar, please go to: <https://www2.gotomeeting.com/register/538808011>.

The EIPC is a first-of-its-kind effort by Regional Planning Authorities to formally review existing expansion plans and future scenarios on an interconnection-wide basis in the Eastern Interconnection. Analyses undertaken will inform policy makers and stakeholders regarding future expansion options and also the potential implications of changes which may result from proposed legislation or other policy initiatives.

State, provincial and federal policy makers and other stakeholders will have a critical role in providing strategic guidance to the EIPC analyses on the range of policies and scenarios that could influence transmission expansion. The webinar will provide an opportunity to ask questions and offer input on how stakeholders can participate.

Note: If you have already registered for the October 13 webinar and would like to change dates, please contact mpinard@keystone.org.
