

ISO NEW ENGLAND PLANNING PROCEDURE NO. 5

**PROCEDURE FOR REPORTING NOTICE OF INTENT TO
CONSTRUCT OR CHANGE FACILITIES IN ACCORDANCE
WITH SECTION I.3.9 OF THE
ISO NEW ENGLAND TARIFF
(PROPOSED PLAN APPLICATION PROCEDURE)**

EFFECTIVE DATE: June 5, 2009

Procedure For Reporting Notice of Intent to Construct or Change Facilities in Accordance with Section I.3.9 of the ISO New England Tariff (Proposed Plan Application Procedure)

INTRODUCTION

Section I.3.9 of the ISO New England Transmission, Markets and Services Tariff (the "Tariff") states that "Each Market Participant and Transmission Owner shall submit to ISO, in such form, manner and detail as the ISO may reasonably prescribe, (i) any new or materially changed plan for additions to or changes to any generating and demand resources or transmission facilities rated 69 kV or above subject to control of such Market Participant or Transmission Owner, and (ii) any new or materially changed plan for any other action to be taken by the Market Participant or Transmission Owner, except for retirements of or reductions in the capacity of a generating resource or a demand resource unless otherwise provided in Section I.3.11, which may have a significant effect on the stability, reliability or operating characteristics of the Transmission Owner's transmission facilities, the transmission facilities of another Transmission Owner, or the system of a Market Participant."

Planning Procedure 5-1, "Procedure for Review of Governance Participant's Proposed Plans", is the detailed procedure to be followed by the appropriate Governance Participants, Committees, Subcommittees, Task Forces, and the ISO staff in order to comply with the provisions of Section I.3.9 of the Tariff.

Planning Procedure 5-2 (Deleted)

Planning Procedure 5-3, "Guidelines for Conducting and Evaluating Proposed Plan Application Analyses", provides guidelines for conducting and evaluating Proposed Plan Application analysis for use by the ISO and Reliability Committee.

Planning Procedure 5-4, "Subordinate Proposed Plan Application Policy", is the detailed procedure to be followed if a Project Developer elects to pursue to bridge the gap between the System Impact Study queue and the construction sequence.

Planning Procedure 5-5, "Special Protection Systems Application Guidelines", provides guidelines on the effects of proper and improper operation of Special Protection Systems.

Planning Procedure 5-6, "Scope of Study for System Impact Studies under the Generation Interconnection Procedures", provides guidance to ensure that the Network Capability Interconnection Standard ("NCIS") is consistently applied in defining the scope and study assumptions for System Impact Studies.
